Purpose

This guide has been prepared to assist Approved WSPs in understanding the reporting requirements under Racing Victoria's (RVL) standard conditions of approval to publish and use Victorian thoroughbred race fields (**Standard Conditions of Approval**).

Definitions

1. Capitalised terms used in this guide have the meaning given in the Standard Conditions of Approval.
2. In addition, the following terms are used in this guide:

Designated Approved WSP means an Approved WSP that is designated as such in its Approval Schedule at Item 10 and 11, and in respect of which further reporting information is required.

Event Date means the date on which a Victorian Race which is the subject of a Betting Transaction occurred.

Result Date means the date on which the Betting Transaction resulted (that is either won or failed).

PART A: Guide to Daily Supply of Data for all Approved WSPs

1. Requirement under Standard Conditions of Approval

Clause 3.4.3 and 3.4.4 of the Standard Conditions of Approval requires each Approved WSP to:

3.4.3: provide to RVL in the media (hard copy or electronic), by the method and at the time or times requested by RVL, all information relating to Betting Transactions (including amounts paid to Customers in relation to those Betting Transactions, Bet Backs and Free Bets) on a race-by-race, venue-by-venue and day-by-day basis in the form annexed to these conditions and available for downloading on the RVL website (as that form is amended by RVL from time to time).

3.4.4: the Approved WSP must no later than 3 days after the end of each Payment Period, provide all wagering data specified in clauses 3.4.1, 3.4.2, and 3.4.3 to RVL. This will enable RVL to calculate the Fees for the Payment Period, in accordance with clause 3.2.1.

RVL requires that all Approved WSPs provide a Daily Data Collection and Monthly Data Submission in accordance with sections 2 to 11 of this Guide.

2. Daily Data Collection

RVL requires a daily file (**Daily File**) containing details of all Betting Transactions which have the same Result Date to be submitted by 9am on the following day. RVL anticipates that Approved WSPs will automate this process and submit to RVL overnight via FTP.

The naming convention for the Daily Files is:

WSPxxxxx_DDMMYYYY.csv

Where:

- xxxxx is the Approved WSP Unique Code (provided to Approved WSPs by RVL); and
- DDMMYYYY is the Result Date within the file.

Example file name: WSP10001_01082014.csv

3. Monthly Data Submission (if applicable)

A WSP must submit a monthly data file, which is in the same format as the daily file, if there is any adjustment in the details of the betting transactions that are resulted in the same monthly payment period. This monthly file must be submitted to RVL via FTP within five days after the end of each payment period. For example, a WSP should submit the November 2024 monthly data file by 5th December 2024.

4. Introduction to the Data Collection

A sample of the Daily File will be provided to Approved WSPs at the same time or shortly after approval is granted.

Data should be supplied in a comma-separated values (**CSV**) format and otherwise as follows:

Order	Element Name	Element	Type	Max length	Rules	Example

Not all headings are relevant to each Approved WSP, however it is important that Daily Files submitted include a column for each of the elements listed. Nil values should be populated as zero.

5. Definitions

Please refer to the Standard Conditions of Approval for Definitions of all terms.

5.1 Venue Code

A list of official Racing Australia venue codes has been included as **Appendix B**.

5.2 Bets Taken

Bets Taken includes Betting Transactions involving single or multiple contingencies, all of which resulted at a Race Meeting. This includes but is not limited to Win, Place, Trifecta, Exacta, Quinella, First Four, Head-to-Head, Margin bets and any other approved race-specific bet types.

For the purposes of the Daily File, where a Betting Transaction relates to more than one Victorian Race occurring at the same Race Meeting, the amount of the Betting Transaction is apportioned evenly across each of the Victorian Races which are the subject of the Betting Transaction.

Any Betting Transaction involving multiple contingencies across more than one Race Meeting or events are to be excluded from Bets Taken and treated according to the rules set out in the Standard Conditions of Approval for Multi-Event/Multi-Leg Bets.

No deductions are permitted for money back offers or similar inducements in relation to non-winning Betting Transactions.

5.3 Tote Derivative

Tote Derivative means a Betting Transaction in respect of which the odds provided or quoted by the Approved WSP are derived from or calculated or expressed by reference to Totalisator Odds.

5.4 Free Bets Taken

Bets Taken includes all Free Bets.

5.5 Free Bets Paid

Bets Paid **does not** include Free Bets Paid.

5.6 Other definitions

Other definitions for the Daily Data Collection or Monthly Data Submission can be found in **Appendix A**.

6. Daily Reporting of the Eligible Portion of a Multi-Event/Multi-Leg Bet

Approved WSPs are required to report on the Eligible Portion of a Multi-Event/Multi-Leg Bet that resulted on the Result Date which is reported on in the Daily File.

The face value of a Multi-Event/Multi-Leg Bet is apportioned equally across the legs and the Eligible Portion of a Multi-Event/Multi-Leg Bet which is reported in the Daily File is the proportion relating to Victorian Races on the Result Date.

Example 6.1

An Approved WSP accepts a \$75 Multi-Event/Multi-Leg Bet for the AFL Grand Final (27/09/2014) into an ATP Tour Event into the Cox Plate, (25/10/2014). The bet results on the Cox Plate.

This bet would be split into three portions. The requirement is to report only the Victorian Racing portion:

Event Date	Result Date	Venue	Eligible Portion of a Multi-Event/Multi-Leg Bets
25/10/2014	25/10/2014	Moonee Valley	\$25

7. Reporting Eligible Portion of Winning Multi-Event/Multi-Leg Bet (EPWMB)

Approved WSPs have a choice of method for calculating the Eligible Portion of a Winning Multi-Event/Multi-Leg Bet.

An Approved WSP may elect to calculate Eligible Winning Portion as either:

- (a) the amount paid or credited to a Customer under the Multi-Event/Multi-Leg Bet $\times \frac{VRO}{AO}$

where:

VRO means the odds set by the Approved WSP under the Multi-Event/Multi-Leg Bet for the Relevant Winning Race; and

AO means the sum of the odds set by the Approved WSP for all legs of the Multi-Event/Multi-Leg Bet; or

- (b) the amount paid or credited to a Customer under the Multi-Event/Multi-Leg Bet $\times \frac{1}{AC}$

where **AC** means the number of contingencies within the Multi-Event/Multi-Leg Bet.

Approved WSPs must notify RVL in writing of the nominated calculation method prior to the commencement of the Approval Period. Once the Approved WSP has notified RVL of its nominated calculation method, the Approved WSP may not alter its nomination method within the Approval Period.

Example 7.1

An Approved WSP accepts a \$50 Multi-Event/Multi-Leg Bet in the Caulfield Cup into the Melbourne Cup. The bet is successful on the Melbourne Cup.

Event Date	Result Date	Venue	Eligible Portion of a Multi-Event/Multi-Leg Bets	Odds	EPWMB – Option (a)	EPWMB – Option (b)
18/10/2014	04/11/2014	Caulfield	\$25	\$5.25	\$958.70	\$1,575.00
04/11/2014	04/11/2014	Flemington	\$25	\$12.00	\$2,191.30	\$1,575.00

				Sum:	\$3,150.00	\$3,150.00
--	--	--	--	------	------------	------------

Example 7.1 - Option a)

Stake = \$50

Event Odds = \$5.25 for Caulfield Cup; \$12.00 for Melbourne Cup

Step One: Calculate Total Odds = \$5.25 x \$12.00 = \$63.00

Step Two: Calculate Sum of All Odds = \$5.25 + \$12.00 = \$17.25

Option a) EPWMB = (Stake x Total Odds) x (Event Odds / Sum of All Odds)

Option a) EPWMB Caulfield = (\$50 x \$63) x (\$5.25/\$17.25) = \$958.70

Option a) EPWMB Flemington = (\$50 x \$63) x (\$12.00/\$17.25) = \$2,191.30

Option a) Sum of EPWMB (across both legs) = \$958.70 + 2,191.30 = \$3,150.00

Example 7.1 - Option b)

Stake = \$50

Step One: Calculate Total Odds = \$5.25 x \$12.00 = \$63.00

Option b) EPWMB = (Stake x Total Odds) x (1 / Total Number of Contingencies)

Option b) EPWMB Caulfield = (\$50 x \$63) x (1/2) = \$1,575.00

Option b) EPWMB Flemington = (\$50 x \$63) x (1/2) = \$1,575.00

Option b) Sum of EPWMB (across both legs) = 1,575.00 + 1,575.00 = \$3,150.00

Example 7.2

An Approved WSP accepts a \$75 three-leg Multi-Event/Multi-Leg Bet featuring Sport and Victorian Racing (AFL, tennis and the Cox Plate). The Betting Transaction results on the Cox Plate. The Approved WSP reports only the relevant Victorian Racing portion.

Event Date	Result Date	Venue	Eligible Portion of a Multi-Event/Multi-Leg Bets	Odds	EPWMB – Option (a)	EPWMB – Option (b)
27/09/2014	27/09/2014	Sport (Tennis)	\$25	\$1.25	na	na
27/09/2014	27/09/2014	Sport (AFL)	\$25	\$1.40	na	na
25/10/2014	25/10/2014	Moonee Valley	\$25	\$3.80	\$293.84	\$166.25

Example 7.2 - Option a)

Stake = \$75

Event Odds = \$3.80 for Cox Plate runner; \$1.25 (Tennis); \$1.40 (AFL)

Step One: Calculate Total Odds = \$1.25 x \$1.40 x \$3.80 = \$6.65

Step Two: Calculate Sum of All Odds = \$1.25 + \$1.40 + \$3.80 = \$6.45

Option a) EPWMB = (Stake x Total Odds) x (Event Odds / Sum of All Odds)

Option a) EPWMB Cox Plate = (\$75 x \$6.65) x (\$3.80/\$6.45) = \$293.84

Example 7.2 - Option b)

Stake = \$75

Step One: Calculate Total Odds = \$1.25 x \$1.40 x \$3.80 = \$6.65

Option b) EPWMB = (Stake x Total Odds) x (1 / Total Number of Contingencies)

Option b) EPWMB Cox Plate = (\$75 x \$6.65) x (1/2) = \$166.25

8. Count of Bets

A count of the number of bets placed on Victorian Thoroughbred Racing, per race. Where applicable, this should be populated for both pari-mutuel and non pari-mutuel bet types. The eligible portion of a multi bet shall be recorded as:

$$(a) \quad \frac{VR}{A}$$

where:

VR means the number of contingencies related to Victorian Racing; and

A means the total number of contingencies within the Multi-Event/Multi-Leg Bet.

9. Count of Clients

A count of the number of clients to have placed a bet on Victorian Thoroughbred Racing. Where applicable, this should be populated for both pari-mutuel and non pari-mutuel bet types. The total number of unique clients is an aggregation across bet types (ensuring no client is counted twice within each bet type category).

The YTD number of unique clients is a rolling aggregation since July 1st.

Ideally this would also be calculated at race level, however for simplicity this can be repeated across each race as YTD count for that meeting.

10. Count of New Clients

A count of the number of clients to have placed their first bet on Victorian Thoroughbred Racing (irrespective of a client's first bet date).

For example, a client joins a WSP in March, (related to an NRL promotion). This client bets on NRL matches across March and places their first bet on Victorian Thoroughbred Racing in April. In this example the client would be reported (at race level), as a new client for Vic racing in April.

11. Turnover by Channel

Turnover must be included (at race level), by channel. Mobile via mobile sites and apps should be distinct from turnover via the primary internet site and turnover via a contact centre. If applicable, also nominate turnover via retail, licensed venues and on-course.

Not all categories will be applicable to each WSP, therefore null values should be populated with a zero value.

Appendix A – Definitions of the Elements in Daily/ Monthly Data File

Order	Element	Definition
1	Approved WSP Unique ID	A unique WSP ID assigned by RVL
2	Name of Approved WSP	Name of the approved WSP
3	Event Date	The date on which a Victorian Race which is the subject of a Betting Transaction occurred.
4	Bet Result Date	The date on which the Betting Transaction resulted (that is either won or failed).
5	Venue Code	A unique code assigned by RV for the venue where the Betting Transaction occurred.
6	Venue	The venue where the Betting Transaction occurred.
7	Race Number	The race number in which the Betting Transaction occurred
8	Fixed Odds Bets Taken (excluding Multi-Event/Multi-Leg Bets)	<p>Fixed Odds means a Betting Transaction other than a Parimutuel Bet, a Tote Derivative Bet or a Betting Exchange Bet.</p> <p>Bets Taken means the aggregate of all amounts paid or contracted to be paid to the Approved WSP under Betting Transactions placed on Victorian Races at a Race Meeting other than amounts paid or contracted to be paid to the Approved WSP in relation to Multi-Event/Multi-Leg Bets. Order	Element	Definition
		<p>(g) all amounts paid to or credited to the Approved WSP by way of, in connection with, or by way of economic equivalence to, commissions, rebates or incentives in relation to the Bets Taken;</p> <p>(h) the amount of any Pooling Fees;</p> <p>(i) the amount of all Jackpots Allocated; and</p> <p>(j) the amount of any Seeding by the Approved WSP,</p> <p>In each case in relation to the Race Meeting.</p>
9	<p>Fixed Odds Bets Paid (excluding Multi-Event/Multi-Leg Bets)</p>	<p>Fixed Odds means a Betting Transaction other than a Parimutuel Bet, a Tote Derivative Bet or a Betting Exchange Bet.</p> <p>Bets Paid means:</p> <p>(a) the aggregate of all moneys paid or credited to Customers by an Approved WSP in respect of winning bets under Betting Transactions other than amounts paid to Customers in relation to winning Multi-Event/Multi-Leg Bets and Cash Out Bets;</p> <p>(b) EPWMB; and</p> <p>(c) the aggregate of all Jackpots Created; and</p> <p>(d) Cash Out Bets Paid,</p> <p>but excluding:</p> <p>(e) all amounts paid or credited to Customers by way of, in connection with, or by way of economic equivalence to, commissions, rebates or incentives;</p> <p>(f) all amounts paid to Customers in relation to or in accordance with the terms of any Promotional Offer in excess of the aggregate amounts that would have been paid to the Customers had the return to the Customers from the relevant Betting Transactions in respect of which the Promotional Offer had been made or communicated been calculated or determined in accordance with the odds (either express or implied) which formed the basis of the relevant Betting Transactions and/or the ordinary rules and conditions of the bet type that formed the basis of the Betting Transactions;</p> <p>(g) Pooling Fees, taxes, product fees, payments made to racing industry bodies or other costs of the Approved WSP; and</p> <p>(h) Free Bets Paid,</p>

Order	Element	Definition
		in each case in relation to a Race Meeting.
10	Net Customer Winnings	In relation to betting transactions conducted through a Betting Exchange conducted by the Approved WSP, Net Customer Winnings mean the amount of winnings derived from a contract between a customer of the Approved WSP on the "backers" side and another person on the "lay side" (which may be the Approved WSP or a third party who is also a customer of the Approved WSP) by which a bet or wager is placed in relation to a Victorian Race (or a contingency related to a Victorian Race).
11	Fixed Odds Bet Backs	<p>Fixed Odds means a Betting Transaction other than a Parimutuel Bet, a Tote Derivative Bet or a Betting Exchange Bet.</p> <p>Bet Back means the amount of any betting transaction which is made by the Approved WSP on the "backers" side of a betting transaction for the purpose of reducing or laying-off the Approved WSP's liability on a Victorian Race or on Victorian Races held as part of the same Race Meeting.</p>
12	Fixed Odds Bet Back Revenue	<p>Fixed Odds means a Betting Transaction other than a Parimutuel Bet, a Tote Derivative Bet or a Betting Exchange Bet.</p> <p>Bet Back Revenue means the aggregate amount of all winning Bet Backs made by the Approved WSP with Relevant WSPs in respect of Victorian Races at the Race Meeting, but excluding rebates and commissions received by the Approved WSP in respect of those Bet Backs.</p>

PART B: Guide to Supply of Data for only those Designated Approved WSPs

12. Requirement under Standard Conditions of Approval (Only Designated Approved WSPs)

Clause 5.1, 5.2 and 5.3 of the Standard Conditions of Approval requires that upon request each Approved WSP must:

5.1: provide to RVL from time to time (and in the format requested by RVL):

5.1.1: records or documents in the possession or control of the Approved WSP (excluding bank account details, credit card details and government identifiers) relating to Betting Transactions of Customers;

5.1.2: the names, contact details and similar identifying information in the possession or control of the Approved WSP relating to Customers who have entered into Betting Transactions; and

5.1.3: without limiting clauses 5.1.1 and 5.1.2, information in the possession or control of the Approved WSP in relation to Betting Transactions of Customers with respect to races to be conducted at Victorian metropolitan race meetings from the time that the relevant Betting Transactions are entered into by the Approved WSP on such races.

5.2: Where RVL and the Approved WSP agree that RVL has in place Appropriate Technical and Procedural Measures, RVL may request the Approved WSP to provide access to information of a kind referred to in clause 5.1 on an ongoing basis.

5.3: Where RVL and the Approved WSP agree that RVL has in place Appropriate Technical and Procedural Measures, RVL may request the Approved WSP to provide access to information of a kind referred to in clause 5.1 in real time.

If RVL has indicated that an Approved WSP is required to produce additional information, they may be required to provide:

1. Live Access to their betting system to enable RVL to monitor in real time Betting Transactions on Victorian thoroughbred racing; and/or
2. A Daily Ledger File **in addition** to the daily data collection made by all Approved WSPS (see section 2 of this Guide).

Further detail on these requirements is located in sections 13 to 16 of this Guide.

13. Daily Ledger File

Where the RVL indicates that a ledger file is required, a daily ledger file (**Daily Ledger File**) containing details of all Betting Transactions which have the same Result Date to be submitted by 9am on the following day. RVL anticipates that Approved WSPs will automate this process and submit to RVL overnight via FTP.

The naming convention for the Daily Ledger Files is:

WSPxxxxx_LEDGER_DDMMYYYY.csv

Where:

- xxxxx is the Designated Approved WSP Unique Code (provided to Designated Approved WSPs by RVL); and
- DDMMYYYY is the Result Date within the file.

Example file name: WSP10001_LEDGER_01082014.csv

14. Content of Daily Ledger File

A sample of the Daily Ledger File will be provided to Designated Approved WSPs at the same time or shortly after approval is granted.

Data should be supplied in a comma-separated values (**CSV**) format and otherwise as follows:
